*A Table to find the value in English Money of any number of Light, or Weight Cobs wanting three half pence.*

Plate Cobs wanting half penny weight.					Light Cobs wanting half penny weight				
Cobs	l.	s.	d.	fa.	Cobs	l.	s.	d.	fa.
1	0	4	7	2	1	0	4	4	2
2	0	9	3	0	2	0	8	9	0
3	0	13	10	2	3	0	13	1	2
4	0	18	6	0	4	0	17	6	0
5	1	3	1	2	5	1	1	10	2
6	1	7	9	0	6	1	6	3	0

11	2	9	4	2	11	2	7	7	2
12	3	12	6	0	12	3	1	6	0

The first Column is the number, the other the value. Example; if you would know the value of sixteen Cobs, look in the first Column for ten which comes to 2 l. 6 s. 3 d. and then look for six, which is 1 l. 7 s. 9 d. which added together, makes 3 l. 14 s. which is the value of 16 Plate Cobs. The same rule for the rest.

*A Table to find the value in English Money of any number, Light, or Weight Cobs, from 2 to 100.*

	90	20	05	00		90	21	07	06
	100	22	10	00		100	23	05	00

**The Use.**

To find the value of 70 light Cobs, look down the first Column till you find 70, and against it is 15 l. 15 s. the value required. Now, to find the value of 97 light Cobs, look down the same Column for 90, and you will find 20 l. 05 s. then in the same Column find out 7, and against it is 1 l. 1 s. 6 d. then add these together, and that will be the value of 97 light Cobs, viz. 21 l. 16 s. 6 d. The same method for the weight.

If the weather prove dry, rowl wheat, make an end of sowing all sorts of pulse, shroud & lop old trees, and fell coppice woods; set osiers, willows and other aquaticks; sow Rye, and about the middle of the month, barley, still keeping good store of that grain for use in this month. Let cattle no longer feed on meadows nor marshes you intend to mow; be carefull of your fences, both of meadow and corn and be sure to destroy moles.

In your Gardens and Orchards sow white pease radish, beans, parsnaps, skirrets, parslly, sorrel, bugles, borrag, smallage, orace, lettice, purslain, fennel, marjerome, basil, spinage, dung gardens & orchards graft fruit trees.

Mow headlands: gather the flimpe or earliest hemp and flax: be careful of your wheat and hops being now subject to mil dew, sow turnips, carry forth marle, lime, and other manure, and now flow your houses with timber, cleanse your barley from thistle weeds and other annoyances.

In your Garden and Orchard prune wa-fruit trees, taking off the snails make cherry, goosbery, and raspberry wines; ow inoculate jasmines, oranges, &c. transplant and remove tulips, some may be kept out of the ground others, immediately part, water Hops if the season prove very dry, which will much advantage them, prevent Bees from casting their later swarm

Be diligent in making use of fair weather for mowing and making hay and at the latter part of the month mow your after-grass, and also clover. t. Foyn: and other french hay or grass; lay on your oye as well on barley and, as wheat and, provide good feed, well cleansed against feed time, gather in your winters store of woods, and put out your Ewes and cows which you intend not to fat.

In your Garden and Orchard it is fit to pull up suckers from the roots of trees, unbind the buds you inoculated a month before, now is the time for making cyder of summer frus, gather all ripe fruts. lest your labour be saved by their falling,
